

MSA CABLE-BUDDY MAGNETIC LEAD HOLDER

A breakthrough in electrocution & trip hazard risks!

The MSA Cable Buddy features a high-strength rare earth magnet which will hold to any magnetic steel surface. Simply attached the magnet to the magnetic surface and redirect the cable through the tool.

Features a yellow, high-visibility quick-acting lead clip, which can support multiple leads.

Can be used as a temporary or permanent installation either above or below ground.

Some of the most popular industries include:

- Mining operations
- Hospitals & Medical Centres
- Electrical operations
- Factory/workshops
- Offices
- Construction sites

Supports:	3+ cables
Support Weight:	5kg (±5%)
Dimensions:	30mm W x 120mm H

Are you serious about safety?

Protect yourself and your co-workers from injury caused by cables and leads!
